Networks of Innovation: Vaccine Development at Merck, Sharp and Dohme, and Mulford, 1895-1995 (Paperback)

By Louis Galambos

CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 1998.

Paperback. Book Condition: New. Revised ed.. 226 x 150 mm.

Language: English . Brand New Book. Networks of Innovation offers an historical perspective on the manner in which private-sector organizations have acquired, sustained, and periodically lost the ability to develop, manufacture, and market new serum antitoxins and vaccines. The primary focus is on the H. K. Mulford Company, on Sharp and Dohme, which acquired Mulford in 1929, and upon Merck Co Inc., which merged with Sharp and Dohme in 1953. By surveying a century of innovation in biologicals, the authors are able to analyze the conditions that either promoted or prevented creative changes in this important industry. They show how the activities of these three commercial enterprises were related to a series of complex, evolving networks of scientific, governmental, and medical institutions in the United States and abroad. This is the first such history to draw exclusively on sources internal to Merck, one of the world's leading innovators in modern vaccines and pharmaceuticals.

Reviews

It is one of the most popular ebook. It usually fails to price an excessive amount of. It has been printed in an extremely basic way in fact it is merely right after I finished reading through this book in which really altered me, change the way I believe.

-- **Sigrid Brown**

Absolutely one of the best pdf We have ever read. I really could comprehend every little thing using this written ebook. I am easily could get a satisfaction of reading a written publication.
