Drafting is the method with which you are going to draw the pattern of a garment, a given measurement on a piece of paper. Proper drafting is a systematic method which involves a number of steps. Some of the measurements are going to be lengthwise and some of them are going to be widthwise. Proper drafting is going to depend on three important factors. The first is of course the proper layout, proper pattern making and after that, the cutting of the cloth properly. So if you do not know the basics of proper drafting, and the layout of the design, you are going to have great trouble making up the pattern with just haphazard and topsy-turvy knowledge. When I was a child, I used to see plenty of experienced tailors who just took a couple of measurements, with their inch tape and with their eyes. After that they did some mathematical calculations in the air with their fingers, and noted down some...
