In surveying, a preliminary freshman course is followed by a six weeks field course in the Summer School and in the junior year by courses in railway location and mine surveying. General chemistry, qualitative and quantitative analysis, and assaying are taken in the freshman and sophomore years. Special class and laboratory courses in hydraulics and structural, electrical, steam and gas engineering cover the general subjects. Mineralogy is started in the sophomore year, followed by general geology in the junior, and economic geology and petrology in the senior year. The preparatory courses in mining in the junior year cover the subjects of excavation, explosives, quarrying, tunneling, boring, and shaft sinking. In the senior year, courses on prospecting, development and exploitation of mines are given...
