Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Phonography, for Schools and Colleges: A Course of Lessons in the Ben Pitman System The lessons in this book are based upon the ninth edition of Isaac Pitman Phonography, published in England in 1852, and familiarly known in the United States to-day as Benn Pitman Shorthand. But, unlike the standard works of either of the foregoing authors, this book makes no reference whatever to the science of phonetics, a wholly superfluous feature of a shorthand textbook designed, as this is, to fit the student directly and immediately for the practical application of phonography to commercial and professional needs. This is not a new system, but rather a standard system in new clothes, adapted to new methods. The plan of the book follows faithfully the now generally accepted method of instruction known as the Reporting Style, as distinguished from the Corresponding Style, so universally adopted by authors and teachers up to within a decade ago. This more recent plan involves the presentation of the principles and the arrangement of the exercises in such a manner that not a single word shall be introduced until the principle has been stated which provides for the writing of that word in the briefest form used by the practitioner.
