I need not tell my intelligent readers that this treatise is merely an abstract; but it is hoped that they will find it what the author designed it to be, a careful and conscientious epitome of the knowledge now possessed by the profession on the subject of which it treats. My only claim to their commendation will consist in having placed the knowledge already possessed in a more accessible form, of having made the facts we daily need to use more tangible, by stripping them of some of their garniture, and grouping them in closer and more obvious relations to each other.
